

November is
PANCREATIC CANCER
Awareness Month

**It Kills Twice as Many
Americans as AIDS.**

**Nearly as Many Each Year as
Breast Cancer.**

**It Is The Deadliest Cancer In
America with an Average Survival
Time of 6 months and a
Cure Rate of Only 1%.**

It's PANCREATIC CANCER

Fund A Cure for Pancreatic Cancer is a non-profit group dedicated towards raising awareness about pancreatic cancer. While \$1.9 billion was spent on HIV/AIDS research and \$572 million on Breast Cancer research by our federal government in 2007, only \$73 million was spent on pancreatic cancer research. It is time to do more to help the nearly 34,000 families that will lose a loved one to pancreatic cancer this year.

It's Time to Fund A Cure. Now.
